European Banking Federation

EBF underlines need for EU to focus on improving European economy

The European Banking Federation takes note of the results of the 2014 European elections, which are leading to increased diversity in the European Parliament. The EBF urges all actors in the European Union to overcome their differences and work jointly towards a more stable and productive system that will be contribute to growth of the European economy.

For background, see the EBF Manifesto on the 2014 EU elections.
